F. G. Parrell's celebrated Arabian Liniment triumph-

THE following is from the principal accountant of the wealthy and highly respectable house of Messrs. Voris & Bro., of this city, and presents ONE OF THE MOST WONDERFUL CURES IN THE ANNALS of medical history. Mr. H. G. Farre !- Dear Sir. Actuated by a sense of grate-fulness, I submit the following as an instance of the utility of ya r great medicine. My child, three years old, was sudya r great mentione. My chird, three years cut, was sud-denly attacked with a terrible disease, which in less than six hours prostrated it to total helplessness. The limbs be-came so riged that not a joint could be bent, the flight turned black and cold and entirely deprived of feeling; the eyes fixed, partially closed and altogether blind, following this was deafness to all sounds; the spine became contracted and so curved that when lying on its back the head and heels only touched. Indeed, the child presented every appear-ance of being dead. Immediately on the attack, the lamily physician was called in, and for three weeks he labored to physician was called in, and for three weeks he labored to restore it to feeling, but all in vain, although it was blistered a dozen times and various rubefacient Laminents applied.

A consultation of physicians was then held, but to no purpose, the case was then brought before the Medical Society, but nothing could be suggested which had not already been done, and the doctor then teld me he could do nothing more. We then commenced applying your Laminent freely over the entire length of the spine, and you may imagine a parent's joy, when, after a few applications, returning animation was apparent, and it rapidly recovered with the exception of the sight, which did not become perfect for near a month. The child is now healthy and robust as can be.
